WORK EXPERIENCE

IT Support & Systems Intern

Jul 2025 – Present

Directorate for Personnel and Records Management

- Provided hardware support by diagnosing and troubleshooting desktop and laptop issues to ensure smooth daily operations.
- Assisted in networking tasks, including setting up Ethernet connections and maintaining stable internet access for users.
- Supported staff with basic IT needs, contributing to improved efficiency in a government office environment.
- Gained hands-on experience in IT systems and support within a professional and high-responsibility setting.

Full Stack Developer Intern

Jun 2024 – Aug 2024

Fildev

- Developed RESTful APIs to streamline data exchange between front-end and back-end systems.
- Used SSH and Putty for remote server access and deployment on Linux-based systems.
- Optimized MongoDB queries and indexing, reducing data retrieval time.
- Designed and implemented UI/UX enhancements, improving navigation and interactive elements.

PROJECTS

System Analyst & Full Stack Developer

Jan 2025 – Present

TeamWeb

- Designed and structured the system architecture, ensuring functionality and maintainability.
- Implemented the backend development for student pre-registration and administrative management.
- Implemented the use of APIs to facilitate seamless communication between the client and server.
- Enforced access control, ensuring only admins could manage administrative functions.

Game Developer & Researcher

Jul 2025 – Nov 2025

Worshippers of The Deep (Thesis)

- Developed a roguelike environment in Godot (GDScript) to serve as a testbed for comparative AI research.
- Integrated Python-trained models via ONNX to evaluate Reinforcement Learning agents against Genetic Algorithms.
- Engineered a modular architecture allowing real-time switching between static and adaptive AI environments for data collection.

TECHNOLOGIES/SKILLS

- **Game Engines:** Unity, Godot
- **Programming Languages:** C#, Java, Python, JavaScript (Node.js, React.js), GDScript
- **Web Development:** Express.js, HTML, SQL
- **Databases:** MySQL, MongoDB, Firebase
- **Cloud & Hosting:** AWS S3, GlassFish, SSH/Putty
- **Development Tools:** Visual Studio Code, Git/GitHub, Postman, MongoDB Compass
- **Project Management & Design:** Jira, Figma

EDUCATION

University of Santo Tomas

Aug 2022 – Present

Bachelor of Science in Computer Science

Specialization: Game Development

Relevant Coursework: Game Programming (Unity/C#), Artificial Intelligence, Data Structures
