CAREER OBJECTIVE

A passionate programmer motivated to learn, improve skills, and explore innovative approaches. Experienced in React and NodeSQL with a strong background in implementing APIs. Focused on applying knowledge to real-world projects with creativity and problem-solving.

WORK EXPERIENCE

Full Stack Developer Intern Jun 2024 – Aug 2024
Fildev

- Developed RESTful APIs to streamline data exchange between front-end and back-end systems.
- Designed and implemented UI/UX enhancements, improving navigation and interactive elements.
- Used SSH and Putty for remote server access and deployment on Linux-based systems.
- Optimized MongoDB queries and indexing, reducing data retrieval time.
- Managed version control with GitHub, resolving merge conflicts and reviewing pull requests.

PROJECTS

School Management Web Application Jan 2024 – Present
TeamWeb

- Developed a full-stack web application for student tracking and appointment scheduling.
- Implemented a pre-registration system for enrollment estimates.
- Created an appointment booking feature for administrative inquiries.
- Designed a responsive and user-friendly UI using modern front-end technologies.

Interactive Course Delivery System Jun 2024
Active Learning Portal

- Developed a password-protected learning application with encryption for secure access.
- Enabled user-specific data downloads for instructors and students to track progress.
- Integrated job advertisement and application features for tutors and course administrators.
- Improved security by implementing authentication and access control mechanisms.

EDUCATION

University of Santo Tomas September 2022 – Present
Bachelor of Science in Computer Science
España Boulevard, Manila
